Johnson Learning Commons

- Want a quiet place to study?
- Need to use a computer or laptop?
- Want to charge your personal device?

Visit the Johnson Learning Commons to borrow print materials, check out a laptop, reserve a study room, use the computer lab, charge your device, or receive tutoring.

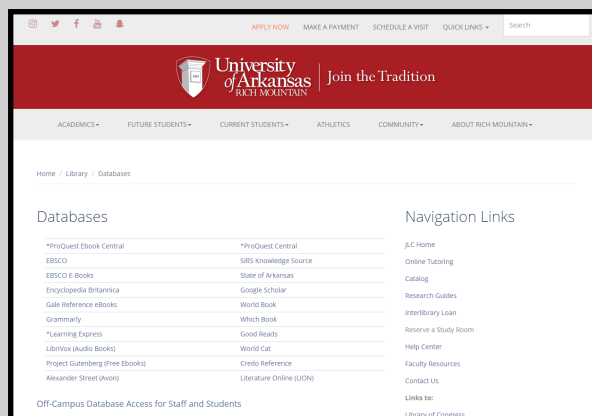

Johnson Learning Commons

Access and Check Out

JLC has access to print and electronic books. To check out a print copy, students must present their current student ID at the Circulation Desk. If the book is not available, students can request it from another library through Interlibrary Loan. E-books can be downloaded or read online.

Databases

JLC has databases that students can access. These include peer reviewed, scholarly journals to be used as references for research and papers.

Copying and Printing

Currently enrolled UA Rich Mountain students have a printing account that is charged each time the student prints. All other patrons are charged according to the type of printing. A copy machine is available for use by students and patrons.

Study Rooms

JLC has study rooms for groups or individuals to reserve for a quiet place to study.

Johnson Learning Commons

Computers

JLC has desktop computers and laptops for use while in the library. Each computer and laptop has MS Word, PowerPoint, Excel, and other MS programs. JLC also has Chromebooks, which work well for collaborative projects using Google Docs.

Formatting and Documentation

Library staff can help you find the quickest and easiest ways to create works cited, bibliographic, or reference pages for your class papers. You can learn APA, MLA, and Chicago style documentation using one of the online sources, as well.

Tutoring

Tutoring services are available through JLC. Student Support Services offers tutoring free of charge to UA Rich Mountain students. Additionally, JLC has two online services, Grammarly and Tutor.com, that currently enrolled students can access at any time.
